Projects

Baseball-Bandersnatch | Developer | April 2019 | expo.io/@jennyg/baseball | github.com/zhen0/Baseball

An ed-tech app aimed at my former baseball loving students to teach the grammar point too/very.

- Developed with React Native, Expo and Heroku.

Code-Along | Developer | April 2019 | codealong.herokuapp.com | github.com/codecapstone

A technical interview preparation website that focuses on technical communication skills.

- Developed with React, Express, Sequelize and Postgres SQL. Integrated code sandbox and re-charts.
- Main personal contribution - setting up speech to text API with Annyang and Web Speech.

90s-Shopper | Developer | April 2019 | nineties-shopper.herokuapp.com | github.com/gh-dream-team

An E-Commerce site where shoppers can purchase gear from the 1990s.

- Developed with React, Express, Sequelize and Postgres SQL. Also tested with mocha and chai.

Professional Experience

Emma Lazarus High School

September 2015 - August 2018

ENL Teacher

NYC

- Worked with new immigrant students to increase their academic English. 95% of students made more progress in English than the state average. Mentored new teachers.

British Foreign and Commonwealth Office

June 2003 - June 2015

Diplomat, Team Leader

London, Beijing, Ottawa, Kabul, NYC

- Provided political reporting on China's position on the DPRK nuclear program.
- Developed and delivered detecting deception interviews and training to help prevent insider threat against British diplomats in Afghanistan and Mexico.
